

15 May 2020

Dear Parent/Caregiver

Staff and students have been very positive about being back at school. South Australia continues to fare well in the COVID19 environment leading us to hope that we will be able to gradually open up more opportunities for students to access as we progress.

Returning to School or Independent Learning at home:

If your child is continuing to learn from home, we again ask parents to inform the school if students are engaged in Home Study next week. Simply contact Student Services student.services@uhs.sa.edu.au to confirm so we can accurately monitor attendance.

Canteen:

We will continue with pre-ordering food, particularly hot food, before school and at recess. However, as of Monday 18 May, the canteen will open at recess and lunch for drinks and snacks. Floor markings will maintain distancing similar to systems in shops and cafés in the wider community. We ask that students use EFTPOS rather than cash where possible. We remind students of the need to wash their hands before entering the canteen.

School gymnasium:

The school gymnasium will re-open at lunchtime for student activities as of next week.

School Sport:

We are still waiting for direction on the resumption of school sport but we hope to receive updates on school sports from the Department for Education soon.

Camps and Excursions:

Camps and excursions are similar to school sport. We are awaiting direction from the department.

COVID19 symptoms and testing:

As we are heading into the colder weather, students must not attend school if at all unwell. If your child is showing any flu or cold-like symptoms, SA Health is asking that you be tested and to remain vigilant.

Regards

Greg Rolton
