

## SPECIAL INTEREST FRENCH BILINGUAL/BINATIONAL PROGRAM

Unley High School offers students the opportunity to join our Special Interest French Bilingual/Binational Program. Students in the Program are in one class for subjects taught in French and in varied classes for other subjects taught in English.

### Benefit for Students

The French Bilingual/Binational Program is designed for students displaying an age-appropriate level of understanding and proficiency in the French language to undertake the course. This program will give the students the opportunity to develop and perfect their language abilities, improve their literacy skills and develop a range of learning and thinking skills.

Subjects taught in the French language follow a harmonised Australian / French curriculum. Students need to be motivated to excel and ready to be challenged in their learning.

### Curriculum and Pedagogy

The year 7 bilingual/binational curriculum is developed in such a way that both the Australian, as well as French educational outcomes are achieved in the subjects taught over the course of the program.
